

SPC - WALL PANELS - FOR MANY TYPES OF SUBSTRATES

SPC wall panels are made from a blend of natural marble and recyclable polymers (Stone Plastic Composite). The material is exceptionally strong, completely waterproof, and built for long-lasting performance. These contemporary panels are easy to install and available in a wide range of realistic designs that beautifully replicate the look of wood, marble, and stone. With their fire-retardant properties and low maintenance requirements, they provide a stylish and functional upgrade to any interior space.

CONTENT:

- Composition: Over 70% marble
- Surface: Digitally printed with UV-protected coating
- Format: Extra-large panels – 1000 x 2600 mm
- Suitable Substrates: Concrete, tiles, gypsum plaster, plywood, and OSB
